

ALQUERFEED PROBIOTICO

range of products

DESCRIPTION

Probiotics in oral suspension/premix powder/soluble powder.

TECHNICAL PROPERTIES

The range of products **ALQUERFEED PROBIOTIC** contain probiotic microorganisms that are natural substitutes of the intestinal flora.

Microorganisms colonize intestinal spaces, acidifying the environment and synthesizing enzymes and bacteriokines. This action leads to the repopulation of the intestinal tract, inhibiting the presence of pathogen bacteria and toxins and thus improving the feed digestibility.

INDICATIONS AND SPECIES

Recommended for the repopulation of the intestinal flora after nutritional changes or antibiotic treatments in poultry, pigs and pre-ruminants.

COMPOSITION

Lactobacillus acidophilus 5 x 10¹¹ cfu

Excipient to 1 litre/gram.

DOSAGE

The product is administered mixed with feed or with water at doses of:

Drinking water and milk, 0.5 to 1 ml or gram/litre. Feed, 0.5 to 1 litres or kilo per ton.

PACKAGING

Bottles of 1 and 5 litres.

Bags of 1 and 25 kg.
