

COLUMVITAL

DESCRIPTION

COLUMVITAL is a vitamin complex with a quick long term effect.

TECHNICAL PROPERTIES

COLUMVITAL is a vitamin complex with a quick long term effect, composed of lyposoluble and hydrosoluble vitamins that are absorbed quickly by the organism.

INDICATIONS AND SPECIES

Intended for poultry, pigs, sheep, goats and cattle in the treatment and prevention of vitamin deficiencies occurring during recovery phases, periods of overproduction and moult.

POULTRY: Administer on the first day of life of broilers, specially if differences in weight are observed. Administer regularly in breeders and layers, in order to maintain a good lay. It is also recommended after infectious processes and prolonged antibiotic treatments.

LIVESTOCK: Used in young animal during high growth periods or when some debility is observed.
